**DO WELL IN SAT 2 PHYSICS MONDAY TEST IN
YOUR SCHOOL EXAM ,STUDY HARD BY
CLEARING UP YOUR CONCEPT**

Kumar Physics tuition in Delhi will duly prepare your wards for state level exams, SAT Physics And Ap's Physics and other entrance tests. Instead of running from school to Branded coaching institute, a Kumar Physics Classes will serve the purpose of a guide thus preventing unnecessary hassle and time wastage. The time has come to bid farewell to low grades in Physics. A few are there who are not comfortable with the online teaching methodology due to some personal issues. For them, Physics tutor will serve the desired purpose. He will enable a student to lay a strong foundation on the basis of which he may plan to move ahead with the same subject in the long run.

In 2012, CBSE (Central Board of Secondary Education) announced this common examination in place of AIEEE and IIT-JEE. JEE is being conducted in two parts, JEE-Main and JEE-Advanced. JEE-Advanced is for admission in **Indian Institutes of Technology** (IITs), and **Indian School of Mines** Dhanbad (to be converted into IIT) and JEE-Main exam is for admission in IIITs (**Indian Institutes of Information Technology**), NITs (**National Institutes of Technology**), CFTIs (Central Funded Technical Institute) and IEST Shibpur, for admission to its dual degree programme.

There are some colleges like IISER's, RGIPT, IISc and others which use score of JEE Advanced for admission. These are not participating institutes of Central IIT JEE Advanced counselling of which all IITs and ISM are members. Any student who takes admission in IIT's or ISM cannot appear for JEE-Advanced exam next year, but the same is not the case with IISc, IISER, RGIPT and other institutes as these institutes only use JEE Advanced score for admission.

In September 2013, the IIT Council approved the decision of the Joint Admission Board to continue with the two-phase JEE pattern ("Main" followed by "Advanced") for IITs and ISM in 2014.

JEE Main

JEE-Main Exam has two papers, Paper-1 and Paper-2. Candidates may opt for either or both of them. Both papers contain multiple choice questions.

- Paper-1 is for admission in B.E./B.Tech (online and offline).
- Paper-2 is for admission in B.Arch and B.Planning (offline only).

- 1.3 Million students including 316,000 female candidates appeared for JEE-Main exam in 2014.

JEE Advanced

Students who qualify JEE-Mains can appear for JEE-Advanced examination. Approximately 150,000 students qualify to appear for JEE-Advanced examination.

- 1.19 lakh students appeared for JEE Advanced in 2014 out of which 27,152 qualified of which 14,269 i.e. 52.55% qualified from 11 Indian cities.
- In 2015, Satvat Jagwani from Satna, Madhya Pradesh scored 469 to top the exam. According to the IIT-Bombay, 26,456 candidates qualified for admission to IITs and ISM.

Given the importance attached to the JEE by students all over India, the IITs follow a rigorous procedure when conducting it every year. The exam is set by the JEE Committee (consisting of a group of faculty members drawn from the admitting colleges) under the tightest security. Multiple sets of question papers are framed and the set that is to actually be used on the day of the exam is known to only about five individuals. The JEE has been noted for originality in its questions.

Kumar sir is widely acclaimed for his command on physics for Medical, Engineering & All Board Exams. One can hardly fail to notice his deep logical approach during physics classes.

He have been teaching Physics to students medical entrance examinations and XI -XII- IIT (mains & advanced) other regional engineering entrance for the last twenty years. He has worked in a number of reputed coaching institutes such as Allen in Kota, Aakash institute in New Delhi & many more.

His methodology of teaching is different for brilliant students and mediocre ones. He strictly advises parents to send their wards to specialized teachers.

His aim is to make average quality students a perfect student in physics subject

His Motto is "Believe in quality. Don't be part of a crowd."

What a student can get at Kumar Physics Classes :

- 1. Comprehensive COURSE MATERIAL.**
- 2. NOTES in classroom.**
- 3. REGULAR TESTS in conventional and unconventional ways.**
- 4. REMOVAL OF DOUBTS (utmost priority).**

It is very difficult for the parents to understand their ward problem ,Why he or she is not getting marks in physics exam in their school And due to which the child loose the interest in the subject and carrying physics As a burden for two years in class 11,12 .

So the parents should understand the basic problem

- 1) ward is not paying full attention in the class because Private school teacher is not able to make him/her understand the topic.**
- 2) Ward is also not understanding the physics in The big coaching institution like FIITJEE/VMC/AAKASH/ALLEN because the strength of students is bit high and they are not focussing on basic concepts.**
- 3) Parents are already paid money to big institution now they are forcing their ward to attend all the classes .**
